

TERRIFIC STORM SWEEPS NATION'S CAPITAL, LEAVING RUIN IN ITS WAKE

THREE ARE KILLED IN ELECTRICAL, WIND, HAIL AND RAIN STORM AT WASHINGTON

Storm Sweeps Down Upon City Suddenly After A Day of Sweltering Heat--Trees are Uprooted, Vehicles Overturned, Office Buildings Wrecked and Many Narrow Escapes are Reported--2.02 Inches of Rain Fell During Storm.

WASHINGTON, July 30.—Like a giant hail a cyclonic storm of wind, rain and hail whipped back and forth across the nation's capital to day leaving death and ruin in its wake. Three dead, scores injured and hundreds of thousands of dollars worth of property ruined is the toll reported.

The city had been sweltering under a temperature of 100 degrees when suddenly the storm came out of the north, heavy clouds driven by a seventy mile gale causing total darkness.

The wind swept the streets clear, unroofed houses, tore detached small structures from their foundations, wrecked one office building, overturned wagons and carriages in the streets and swept Washington's hundred parks, tearing huge branches from trees and even unroofing sturdy old elms, the landmarks of a century.

Streets Littered With Debris.

Tonight Washington's well kept streets with their wealth of trees were littered with broken foliage, rocks, debris and dead birds as if a giant had carelessly swished his club up and down the city.

With the wind came rain and this changed to hail, causing a drop of thirty or forty degrees in temperature within five minutes.

Wreck Office Building.

The hail stones battered roofs and crashed through skylights and windows, terrifying everybody and paralyzing business activity. The wind wrecked a three story brick office building occupied by the B. S. Saul company real estate dealers and five persons were carried down in the crash. W. E. Hilton, vice-president of the real-estate company, Thomas R. Fealey, sixty-five years old and an unidentified man who entered the building to try to rescue those caught in the wreck were taken from the wreckage dead. Half a dozen were taken to hospitals seriously injured and half a dozen more were treated for slight injuries. Tonight the police were still digging in the ruins in the fear that other bodies might be recovered.

White House Lawn Devastated.

The neatly kept lawns of the white house were devastated. Three huge elm trees, uprooted by the wind were thrown bodily across the lawn and up to the very portico of building blocking the drives. President Wilson was seated in the executive offices when the wind crashed through several windows in the white house proper. Secretary Tumulty hurried the president and Representative Korbly, of Indiana with whom he was conferring, to a sheltered interior room, away from the searching lightning flashes.

The capitol setting above the city caught the brunt of the wind, rain hail and lightning. The senate was in session when the hail swept down with a deafening roar beating on the glass roof of the chamber.

The tumult made further business impossible and hurrying to the vice-president's desk, Senator Kern, megaphoned with his hands a motion to recess. The motion was put and although the senators could hear nothing the senate quit work for fifteen minutes, in confusion.

Painters Have Narrow Escape.

When the storm broke, thirty-five painters were at work on the dome of the capitol, swarming over the curving surface or swinging high on shaky scaffolding. William Reese, the foreman hurried to the dome and got most of his men to shelter in side of the big inverted bowl. But Jim Boyle, John Ford, Noble Bailey and Bruce Jones were too late. Bailey and Jones succeeded in scaling the dome in the wind and rain and gained a sheltered ledge where they weathered the storm after trying in vain to get inside. Boyle and Ford were caught under a swinging scaffold just under the eaves of the dome and there they swung, buffeted by the wind, beaten by the hail and soaked by the rain while flashes of lightning trickled around the dome, down from the platinum lightning points in the head of the Goddess of Freedom that surmounts the structure. When the storm was over they crept, shaken and bruised to safety inside the dome.

Panic Among Women.

Here and there throughout the city panic appeared. Horses driven frantic by the wind and hail dashed through the streets in terror until they were stopped by collision with some other windstreaked object. In some of the office buildings and the government departments disastrous panics were narrowly averted. At the bureau of printing and engraving, where hundreds of women are employed, the wind, sweeping through a huge window sent a storm of broken plate glass hurtling through the big press room. Eight or ten women were cut by falling glass and one printer, John Rhodes, crashed severe scalp wounds. The crash of glass swept panic through the big room. A hundred or more of the girls working as printers' assistants, fainted and fell to the floor

and the others dashed terror stricken for the exits. For two hours the office was in an uproar. While the excitement was at its height the wind caught a bundle of 1,000 one dollar bills, half finished, and swept it through the broken window. The bundle was ripped to pieces and the bills scattered far and wide. Director Scatter hurried out a force of scouts and after combing Potomac park and the grounds of the Washington monument for miles and fishing in the tidal basin nearby all but \$75 worth of the bills were recovered.

Struck by Lightning.

Another panic threatened at the pension office where the lightning ripped a corner off the roof and crashed in scores of windows. Another lightning bolt tore a hole in the roof of the postoffice building and ripped open one face of the big clock in the tower. The wind ripped fifteen heavy panels from the floor of the historic old aqueduct bridge and a horse and wagon crossing the structure was blown into the river. The driver escaped.

On the Potomac river water traffic was paralyzed. The tug Edith Goddard Winship sank in the blow, but her crew was rescued.

The excursion steamer Charles H. Warner with more than 100 excursionists aboard, tonight is aground several miles down the river, but is in a safe position.

James Stoddard, a regular soldier, rescued three Washington physicians from an overturned small boat in the river. None of the doctors could swim, but Stoddard towed the three of them in at once. All about the big buildings tonight were littered hundreds of birds killed by the beating hail or blown to death against the walls of the building by the terrific gale. In the residence section of the city hundreds of houses were damaged, roofs torn off, cellars flooded, windows smashed and fences demolished.

For a circle of about four miles about the city the countryside was devastated.

Representative Flood of Virginia narrowly escaped death or serious injury when in the height of the storm he was driving an automobile through the white house grounds. A huge uprooted elm was thrown by the wind directly in the path just missing the machine.

An immense crowd gathered at the American league park for the Washington-Detroit game was caught in the gale. Cool heads kept the crowd from starting a panic. No one was hurt there. The water was two feet deep in the field.

During the brief storm 2.02 inches of rain fell.

Destructive Hail Storm.

Moorehead, Minn., July 30.—A destructive hail storm occurred several miles southwest of here early today. The storm cut a swath three miles wide destroying all crops in its path. The loss, it is said, will reach many thousands of dollars.

Storm Releases Elephants.

Winnipeg, Man., July 30.—During a heavy electrical storm here today a herd of eight elephants with a circus showing here broke loose from their stakes, wrecked half of the circus tents, damaged a number of small buildings in the vicinity and caused a panic in the neighborhood. The elephants were captured, a number of times, only to break forth again before finally being subdued.

Squads of police were summoned but refrained from taking part while trainers with iron bars and pitchforks tried to subdue the animals. The animals destroyed thousands of circus seats, tore the canvas and overturned manager's wagons, but no other animals escaped.

Windstorm Near Joplin.

Joplin, Mo., July 30.—A storm that assumed the proportions of a tornado swept the eastern part of Jasper county and a portion of Newton county tonight. Several persons were reported injured. Houses and farm buildings were blown over, some farm buildings were struck by lightning and burned and much stock was killed. An electrical storm and a heavy rain accompanied the wind.

Romanian Troops Advance.

London, July 31.—The Roumanian troops according to Times' Sofia correspondent have advanced to Philadelphia in Eastern Rumelia 68 miles northwest of Adrianople and to Tatar Pazarlik, 23 miles northwest of Philadelphia and by reason of this fact communications with Eastern Rumelia as well as Northern Bulgaria now are threatened.

Fire at Soldiers' Home.

Minneapolis, July 31.—During a wind, rain and electrical storm tonight lightning struck a large barn at the State Soldiers' home and the fire that followed for a time threatened to do serious damage, but was gotten under control before any of the other buildings caught fire. The loss was small.

EXPLOSION OF GASOLINE TANK BURNS A SCORE

TWO ARE DEAD AND SIX OTHERS ARE FATALLY BURNED

Motorcycle Race Driver Crashes Into Electric Light Pole, Breaking It Off and Contact of Live Wire Explodes Gasoline Tank Upon Spectators.

CINCINNATI, O., July 30.—Two are dead, six will die before morning according to attending physicians, one other is probably fatally burned and 11 others are seriously injured as the result of a motorcycle accident at the Lagon Motordrome across the river from this city tonight.

Odin Johnson, of Salt Lake City, captain of the Cincinnati team which was contesting at the motordrome, for some reason that will probably remain unknown, drove his cycle to the extreme top of the circular track, crashed into an electric light pole, broke it off and the contact of the live wire with the machine exploded the gasoline tank, throwing the burning fluid over a score of spectators. Johnson and William Davis, aged five years, are dead as the result of the accident.

Six others, two women and four men cannot live until morning while the others are registered at the Kentucky hospitals as in a serious condition. That a large number of others, who cannot be located tonight, were burned is almost a certainty as several drug stores in the vicinity of the place were kept busy for an hour after the accident dressing the burns of those who escaped without serious injury.

The fatally burned are: Overall Hart, Newport, Ky. William Patterson, Cincinnati. Herman Davis, Cincinnati. Mrs. William McMichael, Cincinnati.

Miss Bruckman, Cincinnati. An unidentified boy.

AMERICAN TANNING CO. STOCK SWINDLE TRIAL COMES TO CLOSE

German Chemist and Promoter Are Convicted of Misusing the Mails.

New York, July 30.—The American Tanning company stock swindle trial came to a close in federal court tonight with the conviction of Adam Hoch, a German chemist and Eugene S. Robinson, alias H. R. Raymond, of misusing the mails. They will be sentenced tomorrow. Hoch was supposed to have discovered a process for rapid and cheap tanning of hides. The American Tanning company was formed and by representations made through the mails declared by the government to be fraudulent, investors were swindled out of \$500,000, the indictment set forth.

ENGINEER KILLED AND MANY PASSENGERS INJURED IN COLLISION

About Twenty Were Seriously Hurt in Rear-End Collision of Two Pennsylvania Trains.

Tyrone, Pa., July 30.—An engineer, George K. Funk, was killed and about two score passengers were injured in a rear-end collision of passenger trains on the Pennsylvania railroad here this afternoon. The dead man is George Funk of Altoona, Pa. About twenty of the injured were seriously hurt. Among the injured were John P. Cuthbert of Blue Island, Ill., and John Jerkaliko, of Chicago.

PURE FOOD DEPARTMENT MAKE FIRST SEIZURE OF MEAT PRODUCTS

Eight Casks of Hog Casings Were Seized and Placed in Storage.

Chicago, July 30.—The first seizure of meat products under the pure food department was made today by federal meat inspectors at the storage plant of Breckstein and company at the stock yards. Eight casks of hog casings aggregating 2,500 pounds which had stood on a shipping platform until dried were seized and placed in storage. The casks were shipped by the Rath Packing company of Waterloo, Ia.

OFFICES WILL BE CONSOLIDATED.

Dubuque, Ia., July 30.—Internal revenue collector Murphy was today advised that the two Iowa revenue offices will be consolidated and located in Dubuque.

WEATHER INDICATIONS AND TEMPERATURES

Washington, July 30.—For Illinois: Thundershowers Thursday and Friday night; somewhat cooler, Friday fair; moderate south winds becoming variable.

Temperatures.	
Chicago, July 30.—The current maximum and minimum temperatures to day were:	
Current.	High. Low.
Boston	76 84 72
Buffalo	80 88 70
New York	80 94 74
New Orleans	82 88 72
Chicago	84 89 74
Omaha	96 100 72
Oetroit	80 90 74
St. Paul	90 96 72
Helena	70 70 44
San Francisco	62 72 54
Winnipeg	60 78 64

AMBASSADOR MEETS SENATE COMMITTEE

Receives Some Support for His Plan to Recognize the Huerta Rule

WILL DEMAND THE FACTS

Administration Will Be Urged to Furnish Committee with Its Private Information

PRESIDENT'S IDEA UNCHANGED

WASHINGTON, July 30.—Ambassador Henry Lane Wilson's conference today with members of the senate committee on foreign relations resulted in stronger support for his plan to recognize the Huerta government in Mexico than he has received at any time since reaching Washington.

After a three hours' questioning of the ambassador many members of the senate committee tonight expressed the opinion that serious consideration should be given to his recommendations for a guarded and restricted recognition of Huerta, designed to bolster up the present government until elections can be held Oct. 25. The determination of the government's Mexican policy does not rest with the senate, however, and there was nothing in the situation to night to indicate that President Wilson or Secretary Bryan had wavered in their determination not to recognize the Huerta government at present. The matter presented to the senate committee by the ambassador already had been laid before the president and secretary of state and their attitude against recognition had been based upon information from other confidential sources, many of them at variance with the reports of Ambassador Wilson.

Will Demand Information.

As a result of the generally favorable impression Mr. Wilson created and the close scrutiny and tentative approval given his report by many members of the committee it is believed the administration will be urged to furnish the senate committee at once with its private information gathered by William Bayard Hale, Reginald H. Del Valle and by consular agents at various points.

Views Are Widely Different.

Two principal points of difference, however, have been developed among Ambassador Wilson and the administration. These relate to the present control of Huerta's Mexican affairs and to the conditions that would result from the downfall of the Huerta government. Ambassador Wilson told the senate committee that the Huerta government dominated affairs throughout the republic and had driven the constitutionalists out of many of their strongholds, including the states of Coahuila and Nuevo Leon. The president, it is understood, has considered with Secretary Bryan information the constitutionalists fairly were made by Arthur L. Holmes, former secretary of the Michigan retail association in the hearing against the alleged lumber trust to day.

"In 1907, I spent a long time in Washington trying to get an opinion from the attorney general as to the organization of the association," he said. "When the opinion was given out it failed to touch the question of whether the association was in restraint of trade. From then on, the government began investigating the associations and spent more than \$1,000,000 in investigating our work."

Both sides are expected to complete their cases by Friday night.

PEORIA WOMAN EXONERATED FOR THE KILLING OF HER HUSBAND

Jury Returns Verdict Recommending That Mrs. Oscar Addington Be Not Held For Murder.

RESIDENTS ADOPT EXTRA PRECAUTIONS

SUMMER RESIDENTS ARE ALARMED BY BOLD ROBBERIES

Large Quantities of Jewels Are Being Placed in Vaults or Shipped to New York—Extra Watchmen Are Engaged and Special Police Force Organized.

NARRAGANSETT PIER, R. I., July 30.—Thoroughly alarmed by the robberies at Shoreacres and the Rumsey cottages, which netted the thieves almost a quarter of a million dollars, summer residents here have adopted extraordinary precautions against similar losses.

Large quantities of jewelry were placed in safe deposit vaults today. Much of it was shipped to New York. In many instances extra watchmen were engaged by house owners. It is likely that the special police force organized for the summer colony some years ago and later disbanded will be re-established.

The loss to Mr. and Mrs. Charles Rumsey is variously estimated at from \$75,000 to \$115,000. Mr. Rumsey would add nothing today to the original announcement that jewelry of great value had been taken, though from another source came a denial that more than one necklace had been stolen.

John H. Hanan is seriously ill at Shoreacres and the news of the robbery of his wife's boudoir has been withheld from him. Mrs. Hanan would not set a figure on the value of the jewels stolen and the estimate of \$150,000 is really the guess of a jewelry expert.

Many Detectives Are Busy.

No one knows how many private detectives are here, but at least three agencies have been called upon for their best operatives. All the railway stations and the wharves are being closely watched in the hope that the thieves may have been unable to leave town.

Mrs. Hanan stoutly denied tonight that any one in her employ was under suspicion. She also told something more of the circumstances surrounding the loss of her jewels. After selecting what she wished to wear Friday night all out a few pieces were returned to a secret drawer in a bureau and the drawer locked. The maid who assisted her to dress left the room when Mrs. Hanan did. Some time later the woman returned to the room and then noticed that the treasure drawer was open and the greater part of Mrs. Hanan's jewelry missing. She was immediately notified other servants and then waited for the return of Mrs. Hanan.

Up to tonight the detectives apparently had discovered no solution of either the Hanan or the Rumsey robbery, though they came to the conclusion that at the Rumsey home the robbers used an automobile which was seen standing unlighted near the house Saturday night.

CHARGES THAT GOVERNMENT HAS NOT TREAT ASSOCIATIONS FAIRLY

Former Secretary of Michigan Retail Lumbermen's Association Makes Charge at Hearing.

Chicago, July 30.—Charges that the government has not treated the retail lumbermen's associations fairly were made by Arthur L. Holmes, former secretary of the Michigan retail association in the hearing against the alleged lumber trust to day.

"In 1907, I spent a long time in Washington trying to get an opinion from the attorney general as to the organization of the association," he said. "When the opinion was given out it failed to touch the question of whether the association was in restraint of trade. From then on, the government began investigating the associations and spent more than \$1,000,000 in investigating our work."

Both sides are expected to complete their cases by Friday night.

PEORIA WOMAN EXONERATED FOR THE KILLING OF HER HUSBAND

Jury Returns Verdict Recommending That Mrs. Oscar Addington Be Not Held For Murder.

Peoria, Ill., July 30.—Mrs. Oscar Addington, who yesterday shot and instantly killed her husband, was before the coroner's jury to day and after reciting a story of the atrocious indignities to which she had been subjected by her husband, was rewarded by a verdict in her favor by the jury, who recommended that she be released from the charge of murder. According to Mrs. Addington's story she had been abused in a terrible manner by her husband until yesterday after suffering indignities more horrible than ever, she decided to kill herself and procured a revolver for the purpose. When her husband heaped more abuse upon her she fired and he dropped dead. The state's attorney will probably take no further action in the matter.

sion of territory sufficient to guarantee that all American claims would be paid. No action was taken on any of the proposals or recommendations made by the ambassador and the committee is not expected to formulate any opinion as to Mexican policy until President Wilson has indicated the position of the administration.

TEMPERATURE HIGH IN CENTRAL STATES

HEAT WAVE SHOOTS MERCURY WELL ABOVE 100 MARK

Hundred Mark Is Common Throughout the Central States—Southern Illinois Gets Full Blast of the Heat.

CHICAGO, July 30.—Mid-summer heat, bringing to many cities temperatures as high as 106 and making the 100 degree mark common over wide areas, extended throughout the central states to day. Generally described the heat wave extended from the Rocky Mountains to the Atlantic coast but the maximum temperatures were reported from points between Kansas and Ohio. In those and intervening states the mercury bounded well above 100. The weather bureau temperatures usually several degrees lower than the street level temperatures from Cincinnati, Louisville, Indianapolis and Davenport, Iowa, was 102.

Southern Illinois got the full blast of the heat. At Galesburg it was 106 and at Peoria 104. Burlington, Ia., also reported a temperature of 106. Local showers relieved the heat in some places. White at Galesburg, Ill., no rain had fallen since July 14th. Cairo, Ill., to day enjoyed 2 1/2 inches of rain.

Over Missouri, Illinois, Eastern Iowa and Southwest Kansas the heat was intense.

Chicago had relatively cool weather the maximum being 99. The conclusion was relieved by brisk winds. All of the heat affected area was promised cooler weather for tomorrow. High wind pressure in the west was said by the weather to be indicative of cooling breezes.

Burlington Temperature 106.

Des Moines, Iowa, July 30.—Temperatures ranging above 100 were the rule throughout central and eastern Iowa today. In Des Moines a temperature of 109 was officially reported. Burlington had the highest temperature, 106; Ottumwa was second with 105; Marshalltown third with 104. Cedar Rapids reported 102 and Waterloo 97.

Dies From the Heat.

Dubuque, Iowa, July 30.—While at work in a stone quarry Daniel Dickels, 55 years old, died from the heat. Ten other workmen, two of whom are not expected to recover, were overcome.

Heat Causes Two Deaths.

Peoria, July 30.—Heat to day caused two deaths. The government thermometer reached 104 degrees in the shade. In the downtown district the thermometers registered 109 degrees. There were but three prostrations during the day.

Over 105 at Decatur.

Decatur, Ill., July 30.—The thermometer registered 105-1-3 here to day, being the second highest July day in 19 years. The highest mark was 109 on July 22, 1901.

No prostrations have been reported.

101 Degrees at Rockford.

Rockford, Ill., July 30.—The thermometer at the local government station touched 101 degrees at three o'clock this afternoon setting a new mark in many years.

There has been much suffering and several prostrations as results of the heat wave.

No Promise of Relief.

Washington, July 30.—No promise of relief from the heat wave within the next twenty-four hours was held out tonight by the weather bureau experts. They said, however, that local thundershowers probably will bring lower temperatures tomorrow tonight to many of the suffering sections in the west where the mercury climbed highest today. The heat was intense today practically everywhere east of the Rocky Mountains, the highest temperature, 104 degrees, being reported from Yuma, Ariz. Grand Haven, Mich., reported a new high record for that section, 94 degrees. Davenport, Ia., and Concordia, Kan., with their marks of 102 held the day's record for the territory outside the always torrid southwest.

In the east Washington headed the list with a maximum temperature of 97, in New York and Philadelphia it was 94 and in Baltimore 96. These were the official records but street thermometers were around the 100 mark.

Twelve Deaths at Cleveland.

Cleveland, O., July 30.—Two adults and ten babies died here today as the result of excessive heat conditions. There were twenty or more prostrations.

Three Die at Detroit.

Detroit, Mich., July 30.—Three deaths of young children and four prostrations resulted from the heat here today.

Deaths at Philadelphia.

Philadelphia, July 30.—Ten more deaths were reported as being due to the heat here today.

Windsor, Ill., July 30.—All heat records for ten years were broken today when the government thermometer registered 108 degrees. No prostrations were reported.

BRITISH STEAMER REPORTED MISSING.

London, July 30.—The British steamer Wynecric which left Baltimore April 5 and Barbados April 15 for Guayaquil and Portland, Ore., with a cargo of dynamite, before reported overdue, has now been posted by Lloyds Underwriters' association as missing. She carried a crew of more than thirty.

The Woman's Relief Corps' birthday party will meet this evening at the home of Mrs. J. G. Fox, 225 Caldwell street.

SENATORS CLASH IN TARIFF DEBATE

Republican Leaders are Charged with Inciting Panic in Speeches

LEADERS FEAR RESULT

Republican Leaders Assert They Fear Results of Proposed Tariff Measure

TAKE UP METAL SCHEDULE

WEDNESDAY IN CONGRESS

Senate.

Met at noon. Resumed debate on tariff bill. Senator McLean charged Democrats with having broken their tariff promises and attacked the bill.

Senator Lewis introduced resolution to authorize secretary of the treasury to withdraw treasury privileges from national banks which combine to depress federal securities.

Senator Penrose introduced resolution calling on Secretary Bryan for report on treatment of Jews in Roumania.

Postoffice committee indefinitely postponed action on Bryan resolution on assurance of postmaster general that he would not change parcels post regulations until thoroughly tested.

Ambassador Henry Lane Wilson told foreign relations committee his version of Mexican situation. Lobby committee continued to question Martin M. Mulhall on his letters.

Sterling resolution qualifying persons over 18 to make homestead entries favorably reported by public lands committee.

Adjourned at 6:10 p. m., until noon tomorrow.

House.

Not in session. Meets noon Friday. Delegate Wickham before territories committee urged government railroad for Alaska and declared the Guggenheim and Morgan syndicate controlled very mile of Alaskan railroads.

Public lands committee began final consideration of Baker bill to allow San Francisco to secure water from Hitch-Hitchy valley.

WASHINGTON, July 30.—Democrats and Republicans of the senate clashed again in debate on the Underwood-Simmons tariff bills today when Senator Stone charged that the Republicans were deliberately attempting to bring on a panic in the speeches attacking the pending measure.

He cited instances of steel mills in Pennsylvania that already had closed down.

While Republican and Democratic leaders were engaged in hot discussion Senator Kenyon averred that in his talks he had always stated he did not believe the pending bill would result in disaster and that the people of his state did not believe so either. Earthenware schedule was completed except for a few paragraphs which were passed and the metal schedule was taken up.

A battle for appropriations for public buildings at the extra session of congress will take up the matter. The caucus is to consider a resolution instructing the appropriations committee to include in the pending public buildings bill an item "appropriating sufficient money to cover the expenses of selecting sites and other deficiencies for public buildings provided for in the earlier public buildings bill passed at the last session of the sixty-second congress."

Chairman Fitzgerald of the appropriations committee was considerably wrought up over the caucus call. He declared that the committee was still considering the deficiency bill and was looking for instructions from no one.

Prepare For Cross Examination.

The senate lobby investigating committee tonight cleared the way for the cross examination of Martin M. Mulhall, the alleged "lobbyist" of the N. A. M., by lawyers of the association. In executive session the committee passed upon more than 200 questions submitted by the attorneys. Only a few were stricken out and Mulhall will be subjected to a searching examination in an effort to determine the accuracy of his story.

BUSINESS MEN ON BOOSTER TRIP

AUTOMISTS TELL OF JACKSONVILLE CHAUTAUQUA.

Towns Visited as Far South as White Hall and Several Addresses Made—Star Quintet Entertains Crowds.

Making stops at Woodson, Murrayville, Manchester, Roodhouse and White Hall, six automobile loads of boosters for the Jacksonville Chautauqua and Educational Festival spent a profitable day Wednesday advertising the event which will take place in this city next month.

The cars, all decorated with Jacksonville pennants and Chautauqua banners, left the city Wednesday morning about 11:30 o'clock, stopped at Woodson for a short time and arrived at Murrayville shortly after 12 o'clock. After enjoying dinner at the Murrayville picnic, through the courtesy of the program committee of the picnic, of which Mr. McCarthy was chairman, the Boosters were permitted to give a short program. The Star Quintet, composed of five Jacksonville colored boys, sang a number of popular songs, and were well received by the picnicers. W. W. Wharton gave a short address, explaining the good features of the chautauqua program and the advantages of camping out. He interspersed his talk with a number of appropriate stories and was attentively listened to.

After another selection by the quintet, Frank J. Heintz gave an address on good roads. Mr. Heintz emphasized the need of the people in and around Murrayville organizing for good roads, explaining to them that even if they were not organized they will be taxed for state aid roads, whereas organization might result in their direct benefit of the tax, by the improvement of the roads running through their town. The program lasted about half an hour, after which the boosters went to Manchester and then to Roodhouse, where they drew a large crowd by the singing, and Mr. Wharton gave another address, telling of the chautauqua.

The next stop was made at White Hall, where the men were warmly welcomed. The quintet gave a number of selections in the main street and all of the men visited the carnival, where they were given complimentary tickets to all of the attractions. The members of the quintet got on the Ferris wheel and entered a large crowd with a number of selections. After the visit to the carnival the boosters went to the park, where the races were being held. The members of the quintet were permitted to enter the judges' stand and their songs were well received. Mr. Wharton spoke from the judges' stand regarding the educational festival, briefly outlining the program, and he also made a number of announcements regarding the chautauqua. The automobiles returned via Murrayville, where the men stopped for supper and they returned to the city about 7 o'clock Wednesday evening.

At all of the towns where the boosters stopped, Charles Starks put up a large number of posters and banners advertising the chautauqua and a large number of pieces of literature were distributed. The ground all along was well covered and the men were warmly welcomed at all of the towns and enjoyed the burgoos at Murrayville and the fish at White Hall.

On account of the hot day and the dusty roads quite a number who had promised cars were unable to go with the others. It was the original intention to return via Winchester, but this plan was abandoned and arrangements are being made for an other trip to points in Pike and Scott counties, when Winchester will be visited. The next trip will be taken Wednesday, August 6, plans now being under way for the accommodation of the boosters in special cars on the regular Burlington train to Aremville. In addition those in charge wish to arrange for an automobile trip to visit the towns north of here and Aremville and Beardstown on the same day.

A list of the cars that went on the trip Wednesday follows:

Henry Rodgers, owner; A. Wehl, Harry Brady, Carl Hillerby, C. E. Williamson.

F. O'Donnell's car, Gale Fanning, chauffeur; Edward Patterson, W. E. Thomson, Charles L. Stark and William Hudson.

Nelson McMurphy, owner; John B. Snell and the Star Quintet, composed of Addison Swar, Fred Wagner, Alonzo Mosley, Leon Smith and Elmer Jones.

T. A. Chapin, owner; Paul Fritchey, W. W. Wharton, Frank Heintz, H. L. Hunt and Harry Maddox.

William Deutsch followed with a number of men.

AFTER ALL, THE CASH BASIS IS THE ONLY PROPER SYSTEM

Beginning on August 1st, the Model Cash Meat Market, 245 West Morgan street, will conduct its business absolutely on a cash basis. No meat will be left in the delivery boy unless the money is paid him. While the market has always done a cash C. O. D. business lately the rule has been disregarded a little. Customers have put the boy off for a day, or two days, or several days, until quite a little bill is run up. As the proprietor has always tried to sell his meat cheaper on account of getting the cash, it is hardly fair to have him take an account.

The market is always willing to do the straight thing with its customers and only the best grade of meat is on hand. The proprietor feels that if more co-operation will be given by the customers better actual satisfaction will result. After August 1st, then, all orders by phone will be strictly collect on delivery. (Adv.)

Ripley Springs Water, Elnie's.

A WORD TO THE PUBLIC.

How many of our people are aware of a revolution having been accomplished right here in Jacksonville within the past five years. Well there has, and we want to tell you of it.

From time immemorial bread and baker's products have been made at night while the rest of the people slept, and the bakers were obliged to get their rest, whether in hot or cold weather, in the day time. Imagine what condition you would find yourself in after a time of such a life. It is anything but pleasant.

About five years ago the bakers of Jacksonville concluded to reverse things, to be compatible with the mode of life of other human beings, and established the day work system.

The public has not suffered from it. Your bread, pies and cakes that come from union bakeries are now made in the daytime by men whose faculties are in normal condition, since they now live a natural life, and while they are at work you can see what they make.

All but one of the Jacksonville bakeries are now working day work, and find it a great success. The public should encourage this effort of the union bakers to uplift themselves, to better their skill, to improve their product and to live a normal life like all of you do, and to be able to be with their families, to get better acquainted with them, to get better acquainted with them, to get better acquainted with them.

Suppose some one would insist on a life of idleness for you mothers by making you do your work at night and compelling you to sleep during the daytime. You would certainly and rightfully object, and we would all stand by you in your objection, for such a life would be unnatural.

To work at night is not natural, and only in extreme necessity is it required. It has been found not necessary to bake bread at night, and yet there is one non-union bakery in Jacksonville whose proprietor insists on working himself in the daytime by attending to the deliveries, and requiring his family and other help to work at night.

There is no necessity for this as is proven in the success of the day work system in the union bakeries.

All honorable means have been used by the union to persuade this one bakery to see the logic of their position, but to no avail. We ask the public to encourage this move for the betterment, the uplift of our condition, by purchasing the product of union bakeries which are operating under natural and hygienic conditions. These are the bakeries:

Roberts' Baking Powder

Blue Ribbon Brand

Our Quality Baking Powder with its new label, new brand and is packed in the new improved friction top can.

Surest and Purest Baking Powder

Several months since we made a contract with the manufacturer of our High Grade Baking Powder whereby we were justified in reducing the price from the regular 25c Price to the low price of ONLY 15c per can. Since that time ROBERTS' BAKING POWDER has won its place in some of the best homes in Morgan county. There is no better Baking Powder on the market, irrespective of price or brand. TRY IT—BUY IT—USE IT and if not found entirely satisfactory your money is REFUNDED.

16 ounce cans now only 15c

A Guaranteed Baking Powder

We absolutely guarantee Roberts' Baking Powder to be of the highest possible quality. It is absolutely pure and although we offer it at the amazingly low price of 15 cents a can, we stand behind every can and say to you "bring it back if not entirely satisfactory." Roberts' Baking Powder gets the results you want in baking.

The Perils of Hot Weather

These hot days bring on the inevitable cases of stomach and bowel trouble and a Blackberry or Neutralizing Cordial will be needed to straighten you out. Why not order a bottle and have it ready for cases of dysentery, diarrhoea or cholera morbus. Our line of mineral and aperient waters is very complete.

**SEEK TO OVERCOME RESTRICTIONS
OF OLD SICILIAN MARRIAGE CUSTOM**

Old Custom is Serving to Keep Chicago Man's Bride Separated From Him.

Chicago, July 30.—A writ of habeas corpus was called for to day to overcome the restrictions of an old Sicilian marriage custom which Gaetano Castellano declared had served to keep his young wife separated from him. A writ was directed against Antonio Lopiccolo, father of Mrs. Rose Castellano, Castellano whom the husband charges with keeping his daughter in hiding.

Castellano declared that he had met with the favor of his bride's parents but that after the marriage they decline to part with their daughter because of a Sicilian custom demanding that the husband's parents call upon the bride's parents before she leaves their home. Castellano's parents are in Sicily.

ATTORNEY IS DROWNED.

Peoria, Ill., July 30.—George Vanner, an attorney of Princeton, Ill., was drowned while swimming in the Illinois river at Hennepin tonight. The body has not been recovered.

Taking Big Chances.

It is too great a risk to depend upon neighbors or sending for medicine in case of a sudden attack of bowel complaint. In almost every neighborhood someone has died from cholera morbus that could have easily been saved had the proper medicine been at hand. Then think of the suffering that must be endured until medicine can be obtained. The safe way is to keep at hand a bottle of Chamberlain's Colic Cholera and Diarrhoea remedy. It has never been known to fail and has undoubtedly saved the lives of many people. Buy it now. It only costs a quarter. For sale by all dealers.—Adv.

BIRTH RECORD.

Born, Wednesday, at Passavant hospital, to Mr. and Mrs. Henry Maurer of Springfield, a daughter.
Born, Wednesday morning, to Mr. and Mrs. Frank Long of Litchberry, an eight pound daughter; fifth child.

People are coming for miles to see to day's fast races. You ought to go one mile to see them.

MISS MABELLE FISHER

who appears at the Grand tonight. Miss Fisher, who has appeared on all the larger vaudeville circuits, is a prima donna soprano and has her own accompanist with her.

Clearance Sale of Summer Suitings

All that make a sale worth a minute's consideration from you is the VALUE YOU GET FOR YOUR MONEY. Any one who has been a customer of ours will tell you that you always get value on WEIHL'S SUITS. This business is built on giving values, just as much during a sale as at any other time.

You will find that our furnishings are characterized by the same distinction and quality that have made our tailored suits famous in this section of the state.

The Men's Wear Store **A. WIEHL** No. 15 West Side Square

Rereco Toasted Croutons**The New Summer Dish. Ask Us About It**

Rereco Toasted Soup Squares—The Original Crouton—is something you can eat with every meal and between meals.

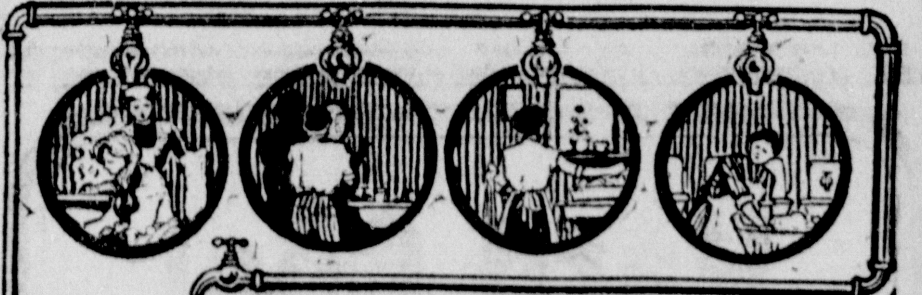

For Breakfast—with cream and sugar, with berries, with tea or coffee with soft or medium boiled eggs and a little butter mixed in—just try them.

For Dinner—of course with the soup—no matter what kind—you will want the Croutons. They add the something that is lacking and when Soup Squares are added that something is there, too. And they are delicious with stewed tomatoes and other things, too numerous to mention. If you are a lover of meat dressings or stuffings, have them made of Rereco Toasted Soup Squares just once and you will be a steady consumer for life.

And for light Luncheons—any way at all—with ice cream—it is the same delicious healthful food. Or served with soft cheese, peanut butter or marmalades.
